6416 17th Ave NW, Seattle, WA 98107

SUMMARY

Senior financial analyst with 8+ years of experience across energy, utilities, and asset management environments. Specializes in driver-based forecasting, margin analysis, and building scalable financial processes that improve visibility into operational performance. Proven track record of automating reporting workflows, strengthening forecast discipline, and partnering cross-functionally to support executive decision-making. CFA Level III Candidate with strong analytical and systems-oriented mindset.

RELEVANT EXPERIENCE

Finance Consultant, FP&A and Business Strategy (Nov 2025 – Present)
Pinnacle Solar NW, Portland, OR, USA (Remote)

- Built job-level profitability and unit economics models to evaluate project margins, labor efficiency, and cost drivers in residential solar operations
- Developed cash flow forecasting model to improve liquidity planning in a project-based revenue environment
- Designed sales compensation analytics to align incentives with margin and long-term customer value
- Partnered with leadership to translate operational metrics into financial KPIs supporting scalable growth

Senior Financial Analyst (Dec 2023 – June 2025)
NW Natural, Portland, OR, USA (Remote) - Contract position through Strategic Business Solutions (Bellevue, WA)

- Supported FP&A and financial reporting (SOX) for 15+ infrastructure and capital projects within regulated utility environment
- Improved forecasting tool through automation, reducing process time by 75% and increasing forecast accuracy
- Developed KPI dashboards for PMO leadership, enabling executive visibility into capital deployment and cost performance
- Led project cost estimation and purchase order oversight to manage budget adherence across multiple concurrent initiatives
- Automated recurring reporting processes, reducing manual errors and improving financial transparency

Taiyo Pacific Partners, Kirkland, WA, USA – *Investment Management, Japan & India Equities*

Senior Financial Analyst (Jun 2023 – Jul 2023)
Financial Analyst / Senior Investment Accountant (Jan 2022 – Jun 2023)
Investment Accountant (May 2019 – Dec 2021)
Investment Accountant – Contract (Dec 2018 – Apr 2019)

Selected Contributions Across Roles:

- Led firm-wide quarterly performance reporting to external investors, coordinating with 20+ cross-functional stakeholders to deliver consolidated KPIs, portfolio analytics, and executive-ready insights.
- Streamlined budgeting and expense forecasting processes, improving transparency into cost drivers and strengthening variance analysis across funds and departments.
- Reviewed monthly close processes and financial reporting outputs, strengthening accuracy, audit readiness, and internal controls.
- Automated daily pricing and reporting workflows using VBA, reducing processing time by ~80% and minimizing operational risk from manual data handling.
- Built a centralized reporting database that eliminated three redundant manual processes and improved data consistency across Finance and Research teams.
- Partnered with Portfolio Management to analyze portfolio-level exposures, performance attribution, and risk concentrations, supporting investment decision-making.
- Led system onboarding and reporting infrastructure improvements during periods of organizational change, enhancing scalability and process reliability.
- Developed Excel-based reporting and analytics tools adopted across teams to improve reporting efficiency and standardization.
- Supported external audits and compliance reporting, reinforcing financial integrity and governance standards.

ADDITIONAL EXPERIENCE

- **Data Analyst Volunteer (2018):** Built reporting dashboards, cleaned and analyzed large datasets, and provided actionable insights to support business decisions.
- **Freelance Translator (2018):** Independently managed projects for corporate and academic clients, delivering accurate and timely translations.
- **Pricing Intern (2015):** Analyzed large spare-parts datasets to identify high-margin, high-potential SKUs; partnered with Engineering and Pricing teams to translate findings into actionable marketing recommendations.
- **Audit Assistant (2013):** Performed on-site audit testing and financial statement support across financial services and manufacturing clients, strengthening knowledge of controls, compliance, and financial reporting integrity.
